Alistair is a specialist **crime** and **regulatory** advocate.

He prosecutes and defends in serious criminal cases and has a nationwide **health and safety** and **environmental** practice.

He is a CPS grade 4 prosecutor and on the level A panel of Specialist Regulatory Advocates. He is frequently instructed at an early stage in complex matters to provide advice and to shape the direction of a case. He is well-regarded for his breadth of legal knowledge, focused and persuasive advocacy, and tactical acumen. Since being listed as a 'rising star' early in his career, Alistair has been consistently ranked as a leading junior in the legal directories.

Expertise

Crime

Alistair is a skilful and persuasive jury advocate. He is a Grade 4 prosecutor, who is instructed in the most serious cases, in addition to having a well-established and diverse defence practice.

Alistair prosecutes and defends in the full range of criminal trials, including murder, manslaughter, serious

violence, child abuse, fraud, drugs conspiracies, and firearms offences. He is often briefed at an early stage in complex, multi-handed cases in which his eye for detail and strategic insight are especially valued.

He combines a detailed knowledge of the law and a forensic approach to preparation with a natural empathy and ability to judge the emotional tone of a case. It is this skill which has seen him praised, by judges and instructing solicitors, for his ability with vulnerable complainants and defendants, young witnesses, and those suffering from serious mental health problems.

In addition, Alistair has been instructed by individuals and companies in a variety of driving matters, including those arising from fatalities. Alistair's comprehensive knowledge of road traffic law has resulted in him being instructed by high-profile clients. He is the joint editor of '*A Practical Approach to Road Traffic Law*', which was published in 2023.

Prior to commencing pupillage, Alistair worked in Mississippi for six months, where he assisted lawyers representing individuals on Death Row. His work included drafting a petition for clemency to the state governor and investigating pathology reports on shaken baby deaths.

Regulatory & Discipline

Alistair has an established nationwide practice and is instructed by regulatory bodies across the country. His experience spans a number of disciplines, including health and safety, food standards, and environmental law. He has also represented individuals in cases concerning fraudulent trading, intellectual property and offences brought under the Companies Act.

He is on the A-list panel of Specialist Regulatory Advocates and has delivered talks and seminars to the Health and Safety Lawyers Association on the financial implications for companies, including parent and group companies, arising out of prosecutions for health and safety offences.

In recent years, Alistair has acquired a particular specialism in health and safety cases arising out of construction and demolition incidents. In addition to prosecuting and defending in Crown Court trials, including those involving fatalities, his expertise in this field led to him being instructed by one of the Core Participants in the Grenfell Tower Inquiry.

Alistair is also instructed in proceeds of crime cases. These include proceedings following conviction, but also civil forfeiture and unexplained wealth orders under the recently amended provisions of the Proceeds of Crime Act 2002. He has a detailed knowledge of the new legislative framework and case law in this developing area and is also alert to the tactical considerations which arise in such cases.
