

GUILDHALL CHAMBERS ARE DELIGHTED TO ANNOUNCE THAT HARRY SPURR HAS JOINED OUR PLANNING AND ENVIRONMENTAL TEAM

18 Jun, 2020

We are delighted to announce that **Harry Spurr** has joined our planning and environmental team.

Called to the Bar in 2001, Harry built an enviable reputation as a planning and environmental specialist from Francis Taylor Building and Landmark Chambers in London, and accordingly has extensive experience in these fields, including a substantial number of high profile cases. He returns to the Bar after a period in business, during which he founded and ran a successful renewable energy company, and his recruitment by Guildhall represents the latest stage in the growth of our reputation in these sectors. As one of the leading sets in Bristol for environmental work, our objective is to lead the field in planning law and Harry's recruitment to our team marks an important step in this direction.

To discuss instructing Harry or our other established members of our team please contact Lisa Frostrup (Practice Manager) by [email](#) or tel: 0117 930 9000
