

## **Bristol Law Society in association with Guildhall Chambers**

invite you to an online webinar on

### **Current and emerging themes in planning & environmental law**

Presented by: Brendon Moorhouse & Harry Spurr, Barristers, Guildhall Chambers

**On Wednesday 11 November at 1pm (via Zoom)**

*Guildhall's Environmental Team is one of the foremost on the Western Circuit, with a national presence. The team is made up of practitioners of varying levels of seniority, including two silks. Individual team members are regarded as leading practitioners in England and Wales and have proven track records for dealing with some of the biggest criminal and civil environmental cases.*

### **A G E N D A**

Welcome and Introduction

Brendon and Harry explore some of the trending topics, including the Planning White Paper, recent case law on amending planning permissions, how changes in environmental law and policy will impact on planning decisions and the potential for mediation as a tool to resolve land use disputes

Brendon is head of Guildhall Chambers' Public Law Team and practices in environmental, planning and court of protection law. He deals with both civil and criminal environmental cases and he is as comfortable in the High Court as the Crown and Magistrates Courts handling all manner of serious environmental, regulatory and planning cases.

Harry is a specialist in planning, environmental and other aspects of local government and regulatory law. He has appeared in a substantial number of high-profile, high-value cases. He is also an experienced commercial mediator, with a practice encompassing a wide range of commercial and civil dispute types. He has a particular interest in mediation in disputes involving local government and other public bodies.
